

**0--Face Pattern**

Take one hard step forward and turn and "face" the QB. This is our uncovered pattern.

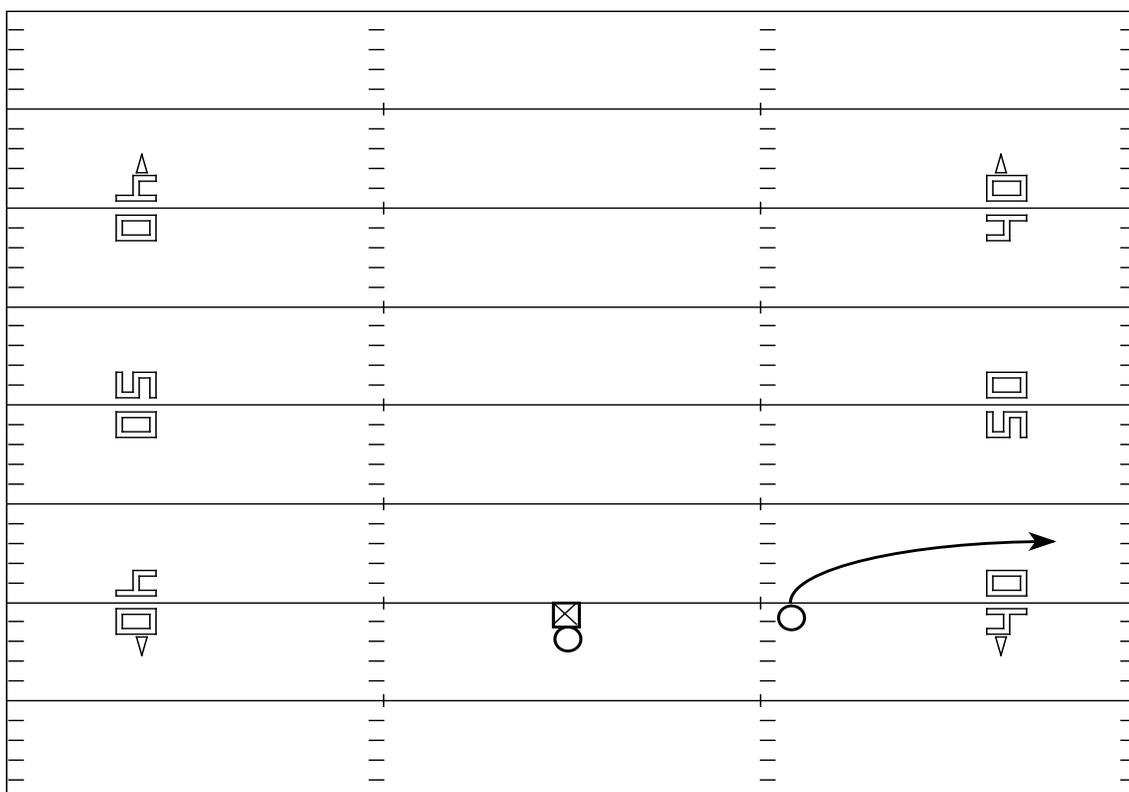

**1--Stop Ball**

Drive hard to 7 yards and plant your outside foot. Turn inside and come back to the QB at 5 yards.

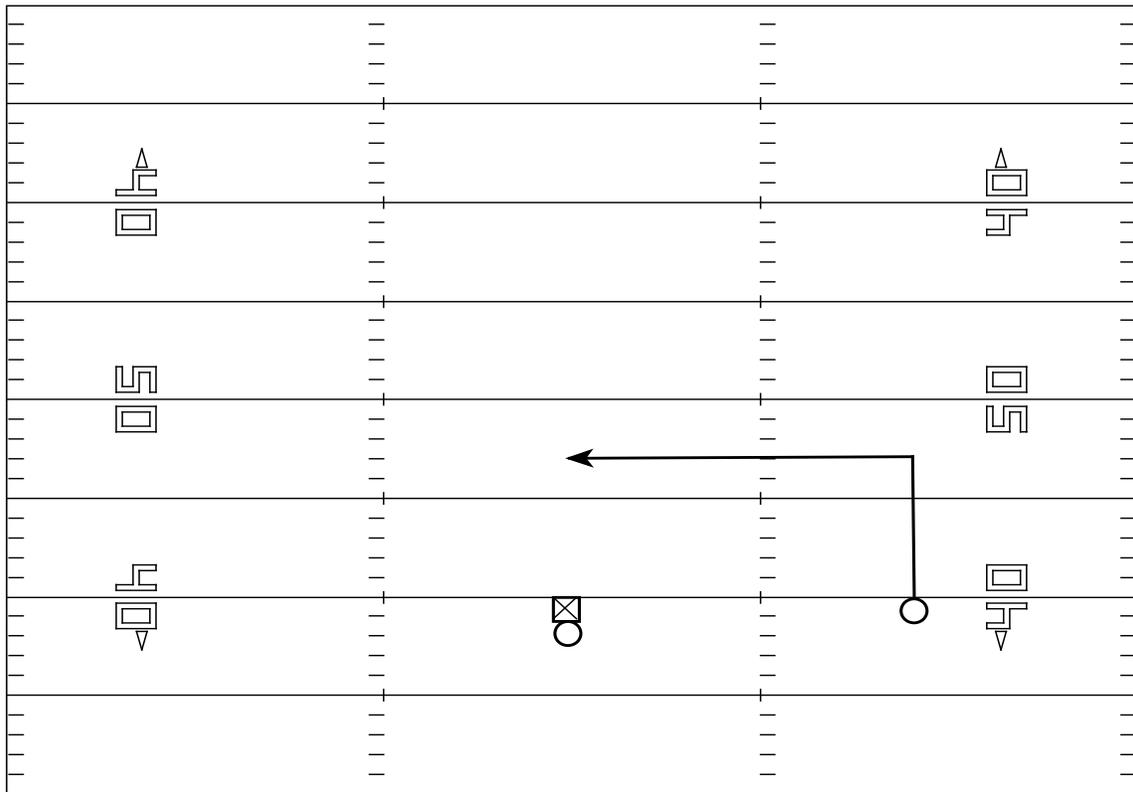

**2--Slant**

Widen your split slightly. Drive hard and plant on your 3rd step (your outside foot). Head to the back of the Linebackers, not more than 7 yards deep.

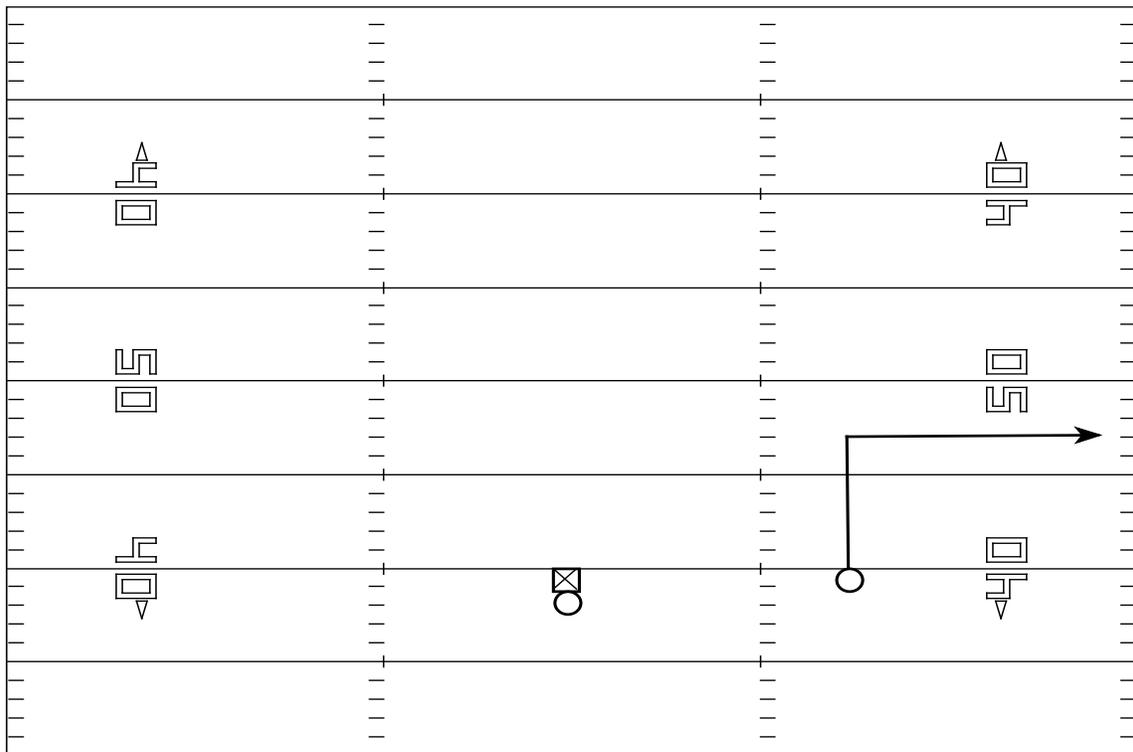

**3--Arrow**

Reduce your split slightly. Aim for a spot on the sideline 3 yards deep on the sideline and look over your outside shoulder.

**4--Drag**

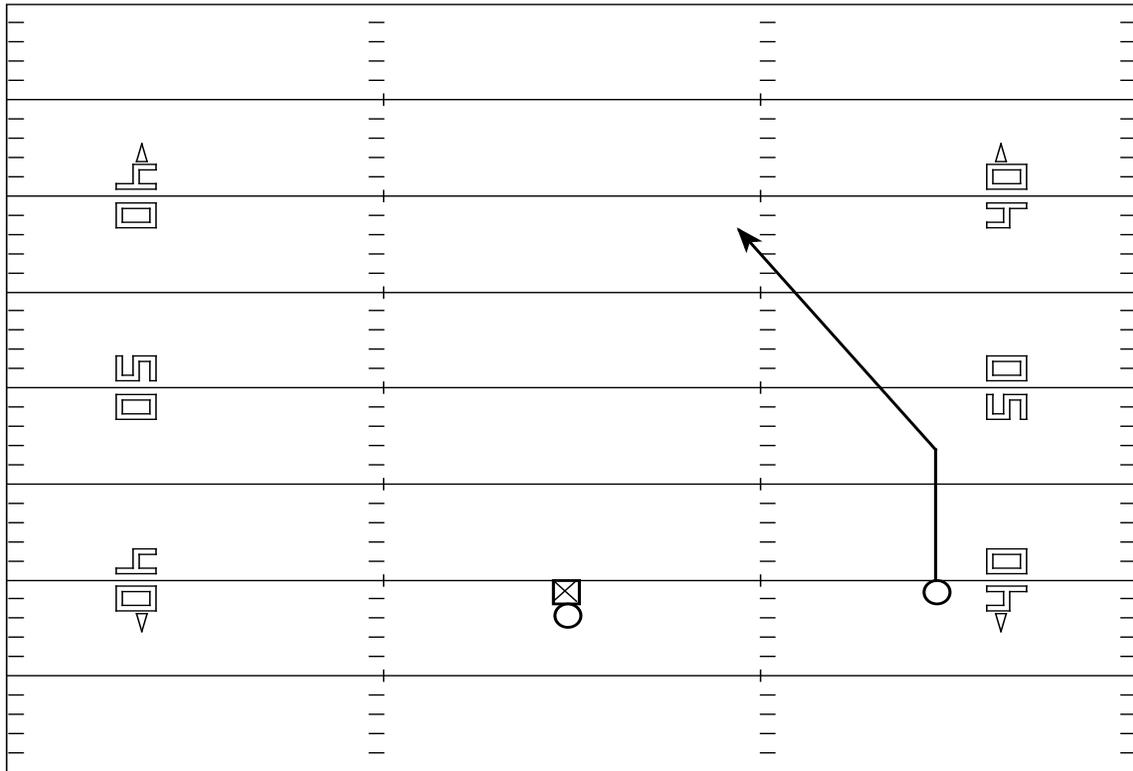

Widen your split slightly. Drive to a spot 7 yards deep and plant on your outside foot. Come across the field and look for the open window.

**5--Out**

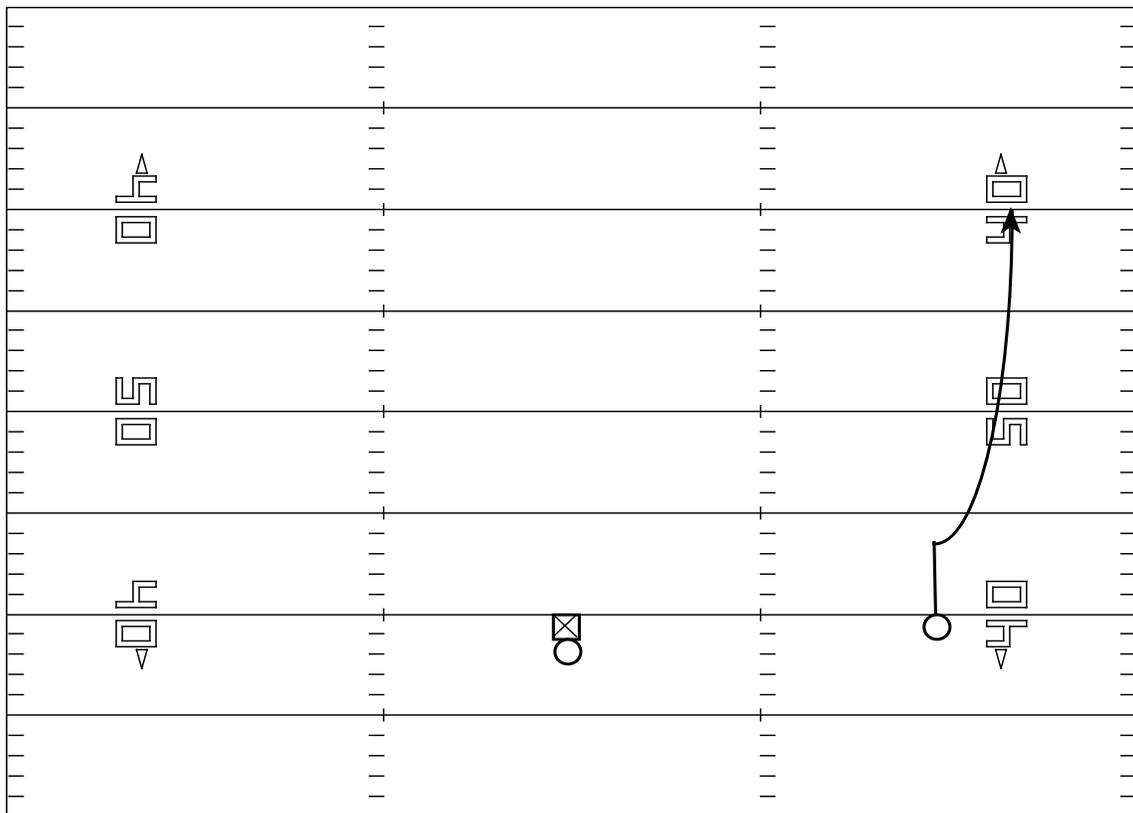

Drive to a spot 7 yards deep and plant off of your inside foot. Look for the ball as you are coming out of your break.

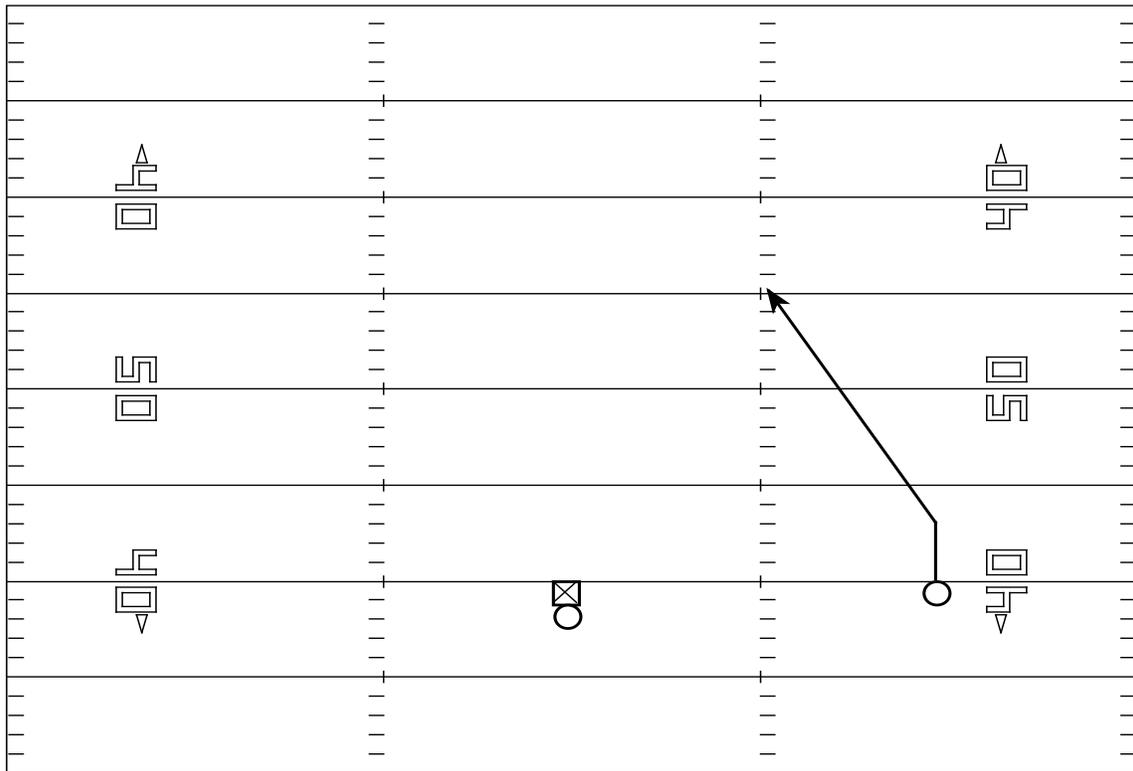

**8--Post**

Drive to a spot 7 yards deep and give a head and shoulder fake. Plant your outside foot and head for the near goalpost.

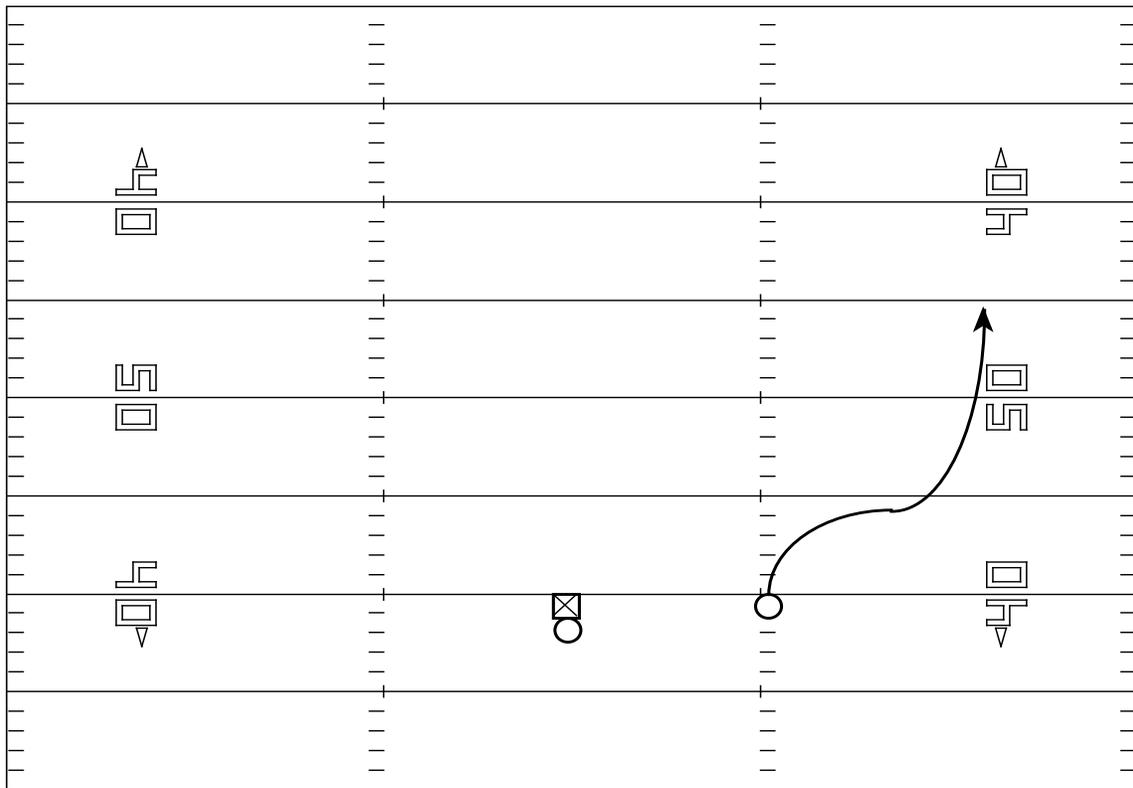

**9--Fade**

Drive hard to 4 yards and plant your inside foot. Bend your route to the outside of the numbers and look over your inside shoulder.

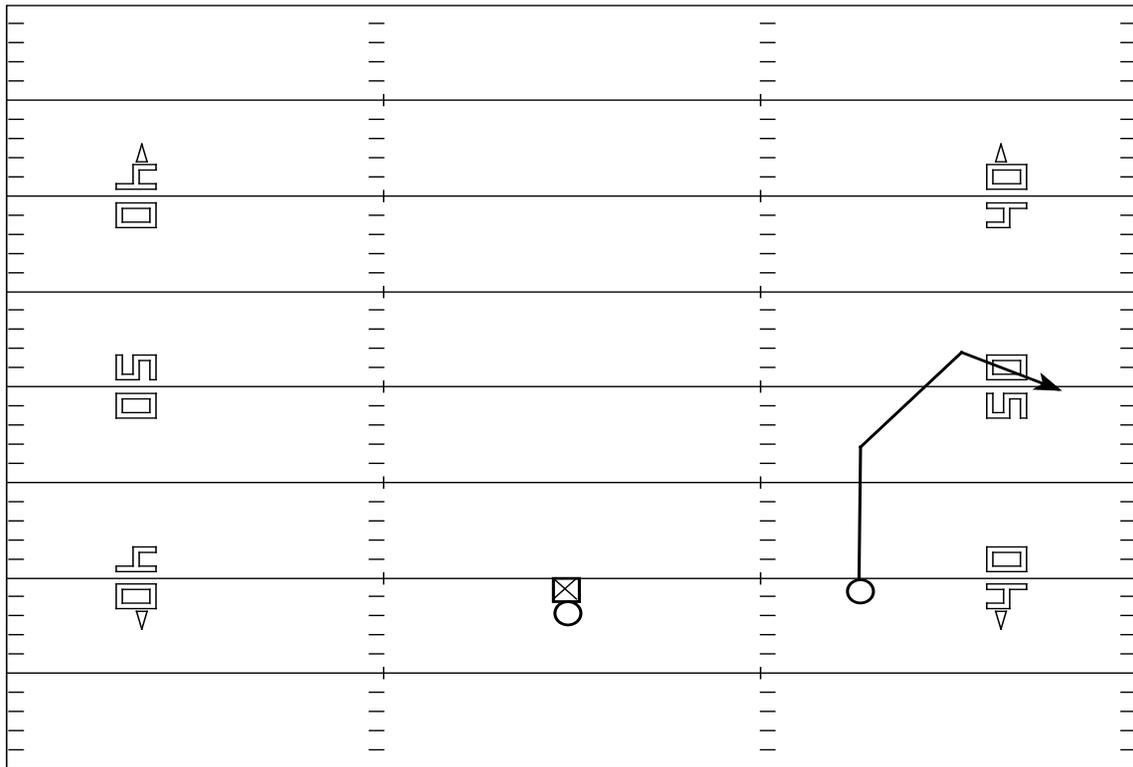

**Skinny**

Drive hard to your 3rd step, plant your outside foot and head for the near goalpost.

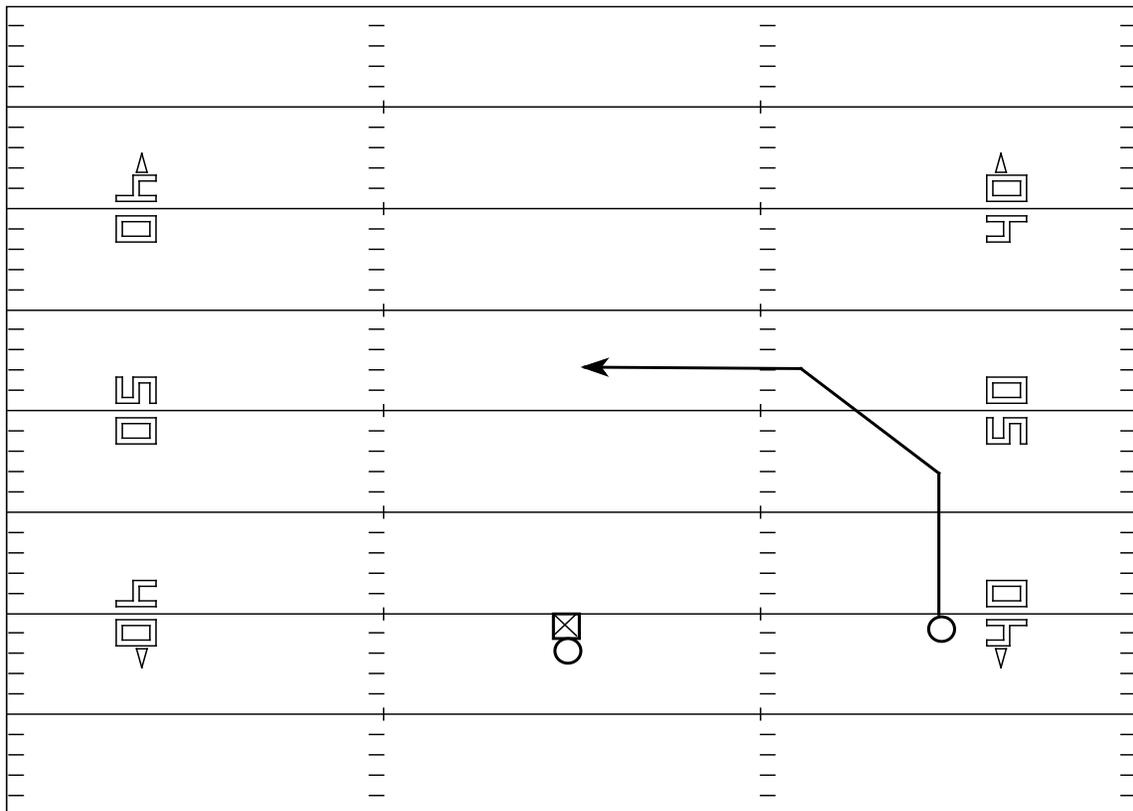

**Wheel**

Reduce your split slightly. Begin this route by making it look like an arrow. Turn upfield and get to the inside of the numbers. Look over your inside shoulder.

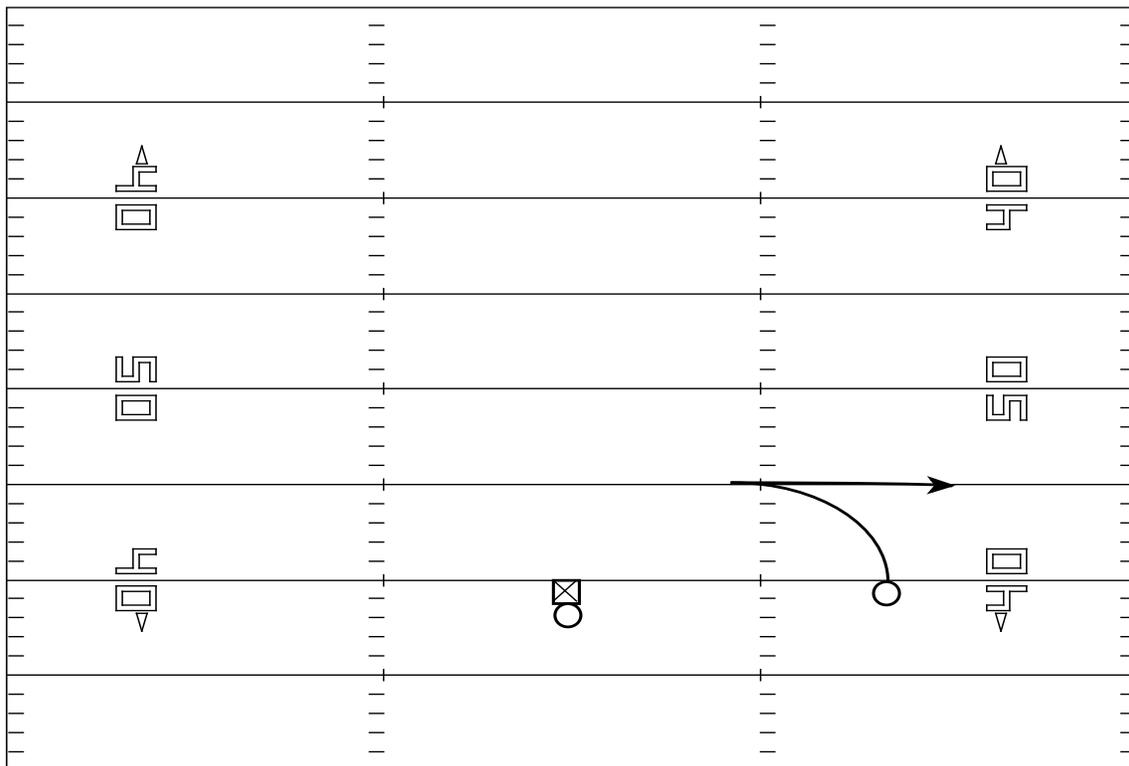

**Comeback**

Drive to 7 yards, plant your inside foot and head to the corner. At 12 yards, plant your inside foot again and come back to the sideline ending up at a depth of 10 yards.

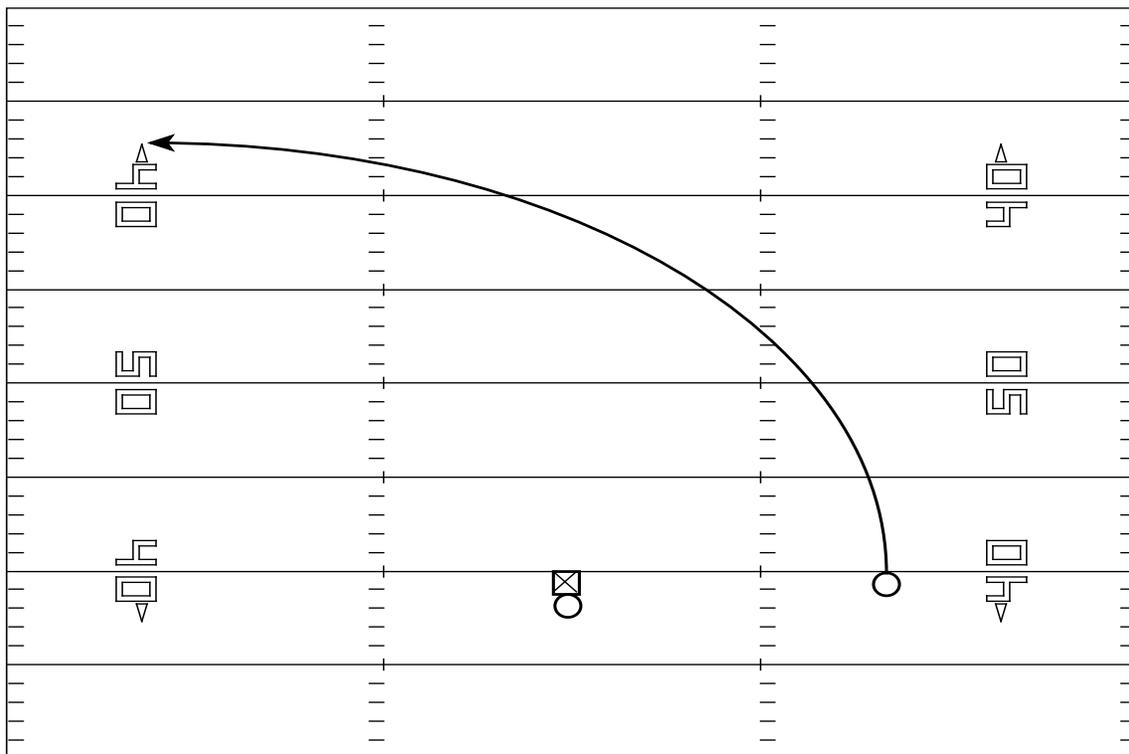

**Dig**

Drive hard to 7 yards, plant the outside foot and head to the near goalpost. At 12 yards, plant the outside foot again and head straight across the field.

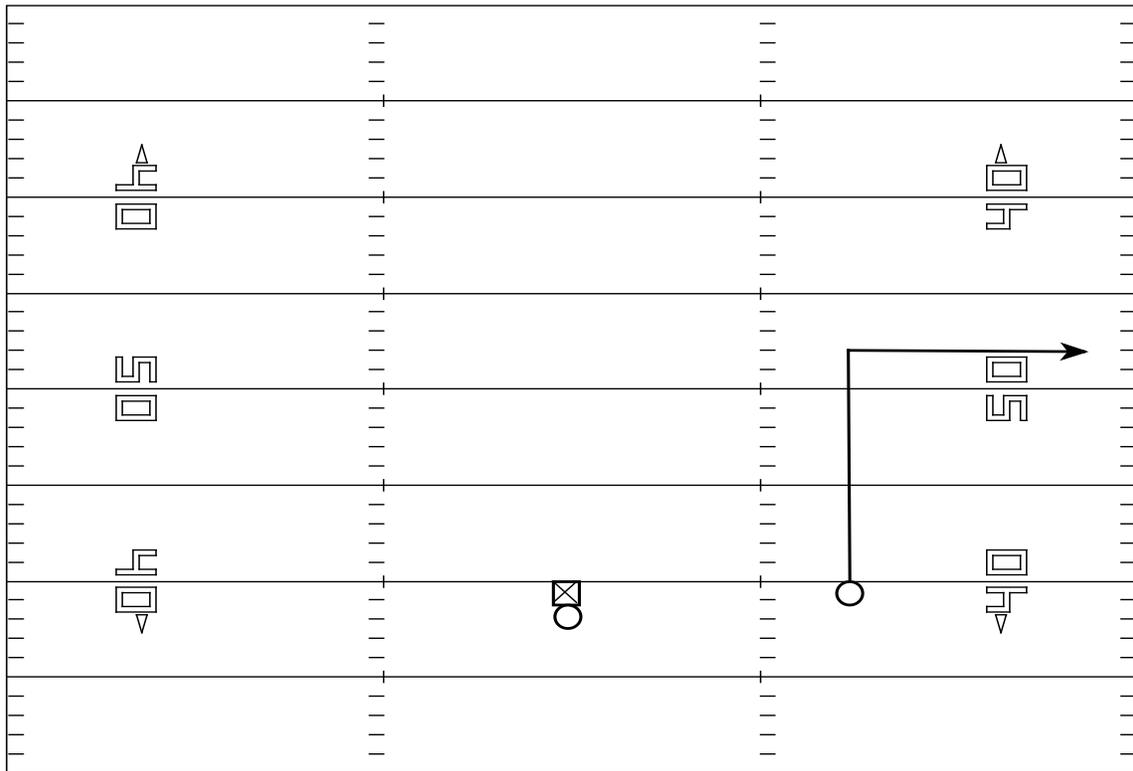

### Whip

Drive hard to the nearest LB making him think you are running a climbing drag. Punch and pivot on him, sealing him on your outside hip and breaking toward the sideline.

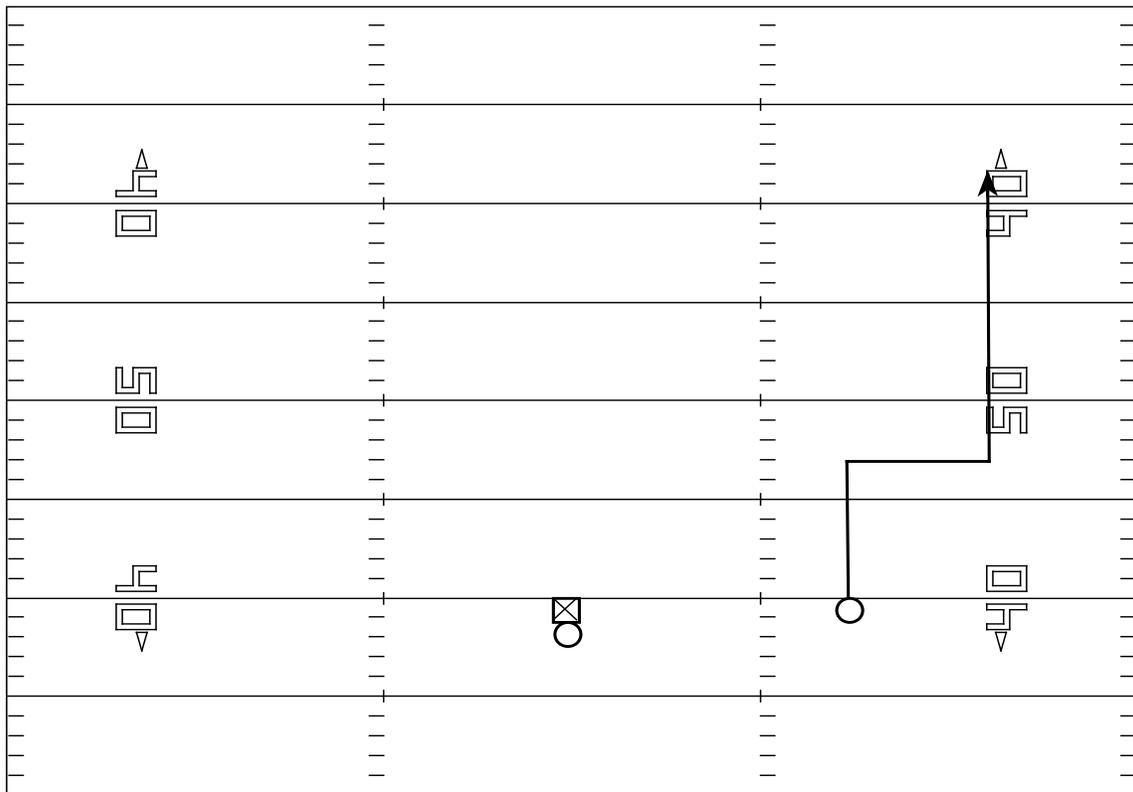

### Climbing Drag

Aim for a spot 23 yards deep and about 7 yards from the sideline.

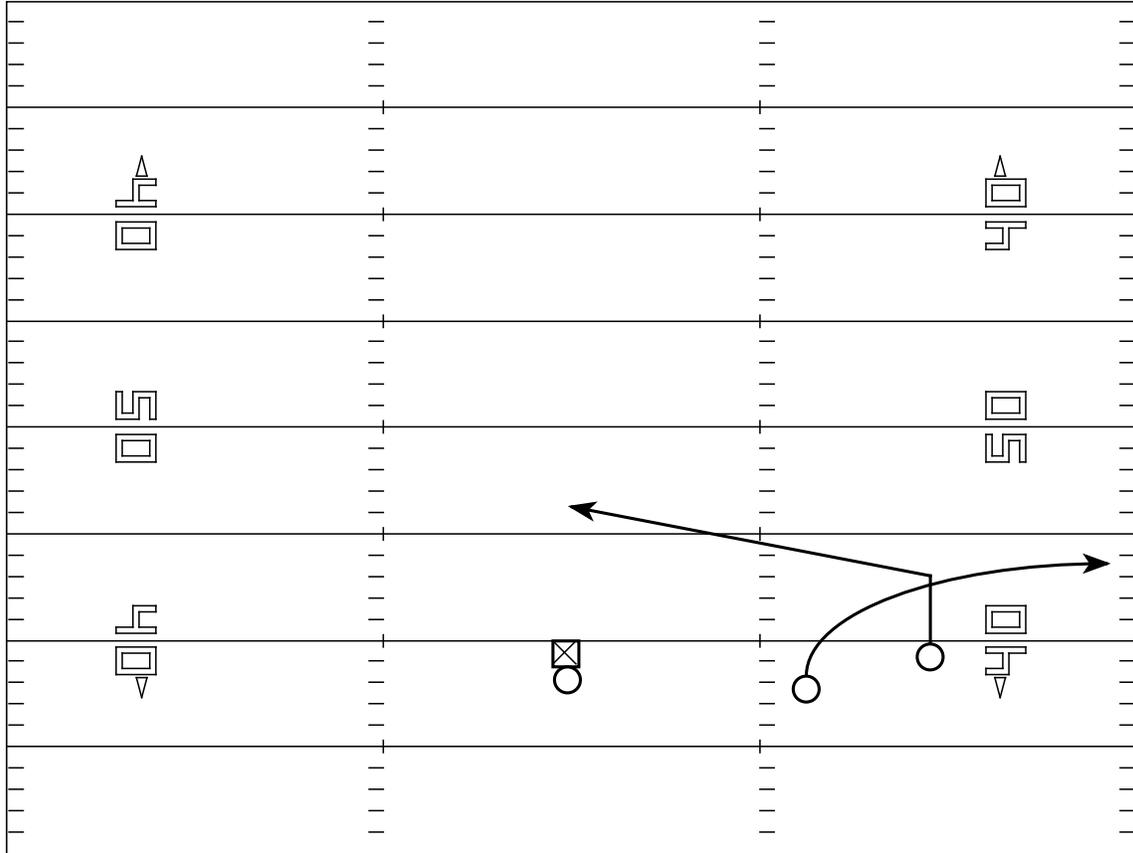

**Bench**

Drive hard to 12 yards, plant the inside foot and square your route to the sideline.

**Chair**

Drive hard to 7 yards, plant the inside foot and break outside. At the inside of the numbers, plant your outside foot and climb vertical.

### Red 23

Routes can be combined and called in the huddle. We always make the call from the outside in. For example, the above route would be called "Red 23" as the outside receiver is doing a 2 and the inside receiver is doing a 3.
